Customer Details:

Customer is a private, not-for-profit organization serving nearly 2 million patients across Georgia, Customer is transforming healthcare, creating a destination known for the best clinicians and a one-of-a-kind experience that always puts patients first. Today, more than 110 years since it was founded, Customer is known as a leading health system in cancer care, treatment of heart disease and organ transplantation with 8 hospitals, 21 urgent care centers, 28 QuickCare locations, 527 Clinic physician practice locations and more than 1,800 Clinic members.

Business Challenge:

Customer wanted to consolidate all of its integration onto one platform. They selected Oracle Data Integration (ODI) 12c as the technology of choice. Customer had limited training and internal expertise to complete the conversion from MS SQL Server Integration Services (SSRS) to ODI.

The ERPA Solution:

ERPA provided Customer with an Oracle Data Integration (ODI) Solution Architect to build and execute a strategic roadmap for training Customer's staff of how to use ODI. Subsequently, ERPA's ODI SME mentored Customer's staff in the conversion of their SSRS integrations to ODI.

Business Benefits:

- Expert lead ODI training and hands on mentoring of staff
- Leading practices for data integration
- Consolidation of integration technologies on ODI

Why ERPA?
