Customer Details:

Customer is a publicly funded, two-year, United States community college system serving the northern portions of the Greater Houston, Texas, area. With “more than 83,000 credit students each semester, and a total enrollment of 95,000 students,” Customer is the largest institution of higher education in the Houston area, and the fastest-growing community college system in the United States.

Business Challenge:

Customer has PeopleSoft HCM 9.2, PeopleSoft FSCM 9.2 and PeopleSoft Campus Solutions 9.2 applications with no data warehouse ecosystem. They had challenges in finding a single point of truth across all departments in order to satisfy regulatory reporting and manage institutional effectiveness. Additionally, the business units desire of more sophisticated analytic reporting capability was high.

The ERPA Solution:

Customer has partnered with ERPA to conduct a “Proof of value” for implementing Oracle BI Applications (OBIA) Financial Analytics 11.1.1.9.2. ERPA was able to spin up OBIA Financial Analytics in our U.S. Based Oracle Laboratory in Dublin, Ohio using Customer’s PeopleSoft Financials data and conduct a demonstration of General Ledger, Accounts Receivable, Accounts Payable and Expenses analytics dashboards and reports.

Business Benefits:

- Determine the business value of implementing OBIA Financial Analytics
- Get expert analysis and product knowledge using real data
- Establish a base line comparison for system option analysis

Why ERPA?

500+ Employees

1500+ Projects

99% Customer Satisfaction
