

Moving your organization to Workday is a smart decision, but one that usually comes with additional questions. ERPA's Workday experts have guided hundreds of organizations through Workday implementations; you can rely on us to prepare your organization for the changes Workday will bring to your employees.

Whether you are considering a new deployment, looking to increase user adoption, or improving your processes to provide more value, ERPA will partner with you to solve new or ongoing challenges. Our Advisory Services include strategic consulting, organizational change management, and training services to ensure ongoing success.

## Strategic Consulting

No two organizations are alike; no two Workday strategies should be either. ERPA will holistically assess your organization -- including industry, geography, worker population, and more -- to ensure your organization's comprehensive strategy is as efficient and successful as possible.

## Change Management

Through collaboratively developed, tailored documentation, ERPA helps you maximize your organization's return on investment by ensuring user adoption with our comprehensive change management and communication strategies.

## Training Services

Let ERPA train your trainers. By educating your staff and developing them into Subject Matter Experts, we give you the knowledge to take Workday beyond a website and into a transformative tool that will take your organization to the next level.

## THE ERPA EXPERIENCE

A relationship with ERPA makes Workday easy. Tailored services, named resources, and warranted work ensure your ERPA experience is a successful one.

Build trust with named resources solely focused on AMS. We spend the time learning your Workday environment inside and out.

Service warranties pledge that we do things right the first time.

Our certified consultants have an average of 6 years' direct Workday experience, which enables tailored solutions and more successful business outcomes.

Our unique "Try and Buy" program offers shorter initial contract terms and regular check-ins to assure complete satisfaction before a bigger commitment.

Founded in 1999, ERPA is a leader in enterprise application managed services, cloud hosting, and consulting services.

As a Workday AMS Partner, ERPA provides ongoing functional, technical, and administrative support to customers in production with Workday Financial Management and Workday Human Capital Management (HCM), providing clients with real-time operational visibility along with the speed and agility to adapt to business growth and change.

ERPA's services and solutions are delivered by a team who embodies our guiding principles of Empathy, Responsibility, Passion, and Agility. Learn more at [erpa.com](http://erpa.com).
